CIVIL SERVICE.

The President Approves of the Revised Rules.

SOME IMPORTANT CHANGES.

Politics Not to Interfere With the Appointment of a Deserving Candidate.

[Associated Press Dispatches to the HERALD.]

WASHINGTON, February 3.—The President has approved and promulgated a revision of the civil service rules which makes several important changes in the system of appointments upon the test of fitness applied in the departments at Washington and in the classified customs offices and postoffices. The commission has also revised the civil service regulations to conform to the new rules. These revisions have been under consideration by the commission during a great part of the year and have received careful consideration by President Cleveland.

The new rules are divided into four parts—general, departmental, customs and postal rules. By the general rules it is made an offense punishable by dismissal in any of the offices of the executive or civil service to interfere in elections, to dismiss or cause to be dismissed any person in said service for refusing to be coerced in his political action or to contribute money for, or to render political service. It especially provides for the dismissal of any officer or employe violating sections 11, 12, 13 and 14, prohibiting the solicitation or enforcement of any political assessment or contribution. It also provides that no question in any examination be so framed as to elicit the political or religious opinions of competitors for the place, and for the dismissal of any appointing or nominating officer inquiring into the politics or religion of any person passing the examination or discriminating in favor of or against such person.

BY THE GENERAL RULES

Several non-competitive examinations are provided for, and a compulsory examination for promotion directed. The President amended the clause directing compulsory examinations so as to exempt persons honorably discharged from the military and naval services, and widows and orphans of these. The authorities given the appointing or nomination of officers to whom the Commissioners may send names eligible for a certain place, are to declare in writing the specific objections to any or all such persons performing the duties of the vacant place. It also provides for a certification for the appointment in preference to others of soldiers and sailors honorably discharged because of sickness or wounds, and of widows or orphans of deceased soldiers or sailors, and in the reduction of force in any classified branch these are to be retained in preference to others.

THE DEPARTMENTAL RULES

Are eleven in number, and authorize the classification of the various commissions and independent bureaus and departments at Washington, and prescribe the examination for admission to this branch of the service. The following officers may be appointed without examination: One private secretary or one confidential clerk of each classified department, and one each assistant secretary thereof, also each head of a bureau appointed by the President direct, custodians of money, for whose fidelity another officer is under official bond, disbursing officers who give bond, persons employed exclusively in the secret service of the government, chief clerks and chiefs of divisions. The maximum age limitation is 45 years and the minimum limitation is raised from 18 to 20 years. Soldiers and sailors who have a claim of preference in civil appointments are let in at 65 per cent, but in all other cases the minimum grade of eligibility is raised from 65 to 70 per cent. The number of names to be certified an appointing officer from which to select for an appointment has been reduced from 4 to 3.

THE CUSTOMS RULES,

Eight in number, provide that in addition to competitive and non-competitive examinations the following officers may be appointed without examination: Deputy collectors who do not also act as inspectors, examiners or clerks, cashiers and auditors or collectors, chief acting disbursing officer, deputy mail officer, deputy secretary, one private secretary or one confidential clerk for each nominating officer. The maximum age limit in most cases is abrogated and the minimum limit raised. Only three names are to be certified to the appointing officer.

THE POSTAL RULES.

Eight in number, in addition to special and non-competitive examinations, provide for the examinations of clerks, carriers and messengers. The examination of the latter is to be used also for the positions of piler, stamper, junior clerk and other places, the duties of which are chiefly manual. Only three names are to be certified to as the postmaster and the following officers may be appointed without examination: Assistant postmaster, private secretary or confidential clerk, postmaster, cashier and assistant cashier, superintendents, designated as such by the postoffice department, and custodians of money, stamps, stamped envelopes or postal cards designated as such by the postoffice department, for whose fidelity the postmaster is under official bond. The rules and regulations to go into effect on March 1st, 1888, were prepared by commissioner Oberty.

EDGERTON'S COMMENTS.

In commenting on the revised rule Commissioner Edgerton called attention to the absence of a rule which it was rumored had been submitted to the President for approval, requiring the appointing officers, whenever a dismissal from the executive service is made, to file in the Department or office from which the dismissal is made a written statement of the cause of such dismissal. Edgerton said that it is true that such a rule has been submitted, but it failed to receive his approval. "From first to last," said Edgerton, "I have been steadily and earnestly opposed to any such rule in the majority report, and later, in the report in the case of Collector Seeberger, of Chicago, I have recorded my protest against its adoption, and the President, in the exercise of his superior authority, has sustained me."

THE HOUSE.

Important Committee Reports Rendered Yesterday.

WASHINGTON, February 3.—The House Committee on Pacific Railroads entered upon the formal consideration of the various bills upon its calendar to-day, and that proposed by the majority of the Pacific Railroad Commission was read over carefully and a few verbal changes made.

The committee this morning concluded to listen to any limited statements which representatives of the Central and Union Pacific Companies might care to present. Accordingly the clerk has been instructed to notify the persons concerned that the committee will, next week, give them an opportunity to be heard.

The House Committee was induced to grant the hearings upon a written request by Huntington and others and the hearings will probably occupy two days, Huntington appearing for the Central Pacific Company on Friday and Charles Francis Adams for the Union Pacific Company on Saturday.

The House Committee on War Claims has agreed to report favorably a bill to reimburse the several States for the interest on money expended by them on account of raising troops and employés in aiding the United States in suppressing the late rebellion.

The House Commission on mines and mining will report favorably the bill for the relief of William McGarrahan proposing to submit to the court, claims for adjudication of the title of McGarrahan to the mineral interests of the rancho Panoche Grant in California. The tract in dispute is now in possession of the New Almaden Quicksilver Mining Company. A minority report will be presented.

PROTECTION FOR SEAMEN.

Among the bills reported from committees was one amending section 3, of the Revised Statutes, prescribing the death penalty for wilful casting away of a vessel on the high seas with the intent of defrauding the underwriters. The bill provides that if the casting away causes no loss of life or personal injury, the person convicted may be sentenced to imprisonment for life or for any number of years not less than three, or to a fine not exceeding $10,000.

THE NICARAGUA CANAL.

Judge Charles P. Daley and Hiram Hitchcock, of New York, ex-Senator McDonald, Admiral Ammen, Commander Taylor and Civil Engineer Menogal, of the navy, appeared before the House Committee of Commerce in advocacy of Representative Norwood's bill to incorporate the Maritime Canal Company of Nicaragua.

Judge Daly made the principal argument devoting his attention mainly to the constitutional question involved.

Anderson, of Kansas, asked if the company would object to the insertion of an amendment to the bill, punishing it by forfeiture of charter for any combination with the Pacific railroads to raise tolls.

Judge Daly did not feel authorized to give a positive answer as he had not consulted upon the subject with other members of the association.

Hitchcock explained the formation of the company.

Clardy wished to know if the stock of the company would be held in the United States.

Hitchcock replied that by the terms of the concession the stock must be offered in New York, Nicaragua, Costa Rica and Europe, but the incorporators who intended to secure the majority of the stock were Americans.

Raynor believed that a provision to that effect should be made in the bill, otherwise France, Great Britain or Germany might come into possession of the canal, through a purchase of the majority of the stock.

Clardy inquired if the incorporators would consent to the insertion of a clause absolutely providing for a retention of the controlling interest in the United States.

After consulting with Judge Daly, Hitchcock announced that they were willing to accept such conditions.

The House then adjourned.

BANK BILLS

Treasury Notice Regarding New Silver Certificates.

WASHINGTON, February 3. — The Treasurer to-day issued the following notice in regard to the issue of $1 and $2 silver certificates: "The Treasurer of the United States will issue silver certificates of the denomination of $1 and $2 in return for National bank notes, or for United States notes or silver certificates mutilated or unfit for circulation. These will only be received for redemption under the regulations now in force, as heretofore. The charges for transportation to Washington on National bank notes in sums or multiples of $1000 will be paid by the government. The charges on United States notes and silver certificates forwarded for redemption or exchange will be deducted from the proceeds of the remittances and the contract rates, unless prepaid, and the charges of returns in new silver certificates are to be paid by the consignee at government contract rates." A copy of this notice will be mailed to every bank and banker in the United States with a view to meeting the demand for these small notes.

CUSTOMS CHARGES.

Treasury Circular Providing for Sugar Drawback Rates.

WASHINGTON, February 3. — The Secretary of the Treasury to-day issued a circular to customs officers providing that the rate of drawback provisionally established by circular of September 28, 1888, on all refined loaf-cut, loaf crushed, granulated and powdered sugar stove-dried or dried by other equally effective process, viz.: 2 60-100 cents per pound less legal retention of 1 per cent, is hereby declared permanent. This question has been pending before the department for many months.

TERRITORIAL JUDGES.

Several Anxious Applicants for Appointment.

WASHINGTON, February 3.—Several changes in the Territorial judiciary are in prospect, and a pressure is already being brought to bear upon the President in favor of numerous applicants for expected vacancies. The terms of Associate Justices Norman Buck and Case Broderick, of Idaho, and of Associate Justice J. B. Blair, of Wyoming, will expire in March. It is not regarded as likely that the present incumbents will be reappointed.

SAFETY AT SEA.

Report of the Supervising Inspectors of Steamships.

WASHINGTON, February 3.—The board of supervising inspectors of steam vessels closed its annual session to-day. Many plans for further preservation of life were considered. A statement was made that vessels are now 50 per cent. safer than twenty years ago. The only safe plan to the committee seemed to be to require the vessels to carry enough life-boats to accommodate, in all cases, the full limit of passengers allowed by law, but as this seemed too radical a change without the sanction of Congress, it was agreed to submit the consideration of this subject to that body.

Cash Received.

WASHINGTON, February 3.—The Department of State having received the twelfth installment of Mexican indemnity, announces that it is now prepared to distribute the same among the parties interested.

DRAWING TO A CLOSE.

Morrow's Case to be Given to the Jury To-Day.

SANTA ROSA, February 3.—The attorneys in the Morrow trial were exceedingly expeditious to-day. The prosecution rested the case during the early part of the morning session and the defense rested until 3 o'clock in the afternoon. An adjournment was then taken until 7:30 P. M., to give Judge Edmunds and M. Troop, witnesses for the prosecution, an opportunity to arrive from San Francisco. No lengthy arguments occurred to interrupt the progress of the examination A ruling of the court in the afternoon was considered unfavorable to the defense. An objection to a question asked A. K. Stevens, secretary of the Sutter street road, as to whether McCord's severance from the employ of the company had been voluntary or compulsory was sustained. The defense excepted, and wished to be noted in exceptance so that they might prove that McCord had been discharged, and manifested a vindictive spirit towards the defendant in pursuance of which he had preferred a charge of embracery against him before the Grand Jury. They wanted to adduce such testimony in refutation of the motive which the prosecution tried to establish, showing that an intimacy existed between McCord and defendant.

F. P. Swett and J. Clark testified to Juror Wood's call at McCord's office, also that McCord ordered him from the premises with the remark that "he was not in that business." Both witnesses were subjected to a severe cross-examination by prosecution.

Adam Grant, of the firm of Murphy, Grant & C., was also examined, but his testimony did not differ from that of the other directors of the Geary street road.

Judge Edmunds arrived on the evening train, but did not testify, as the prosecution learned that he did not possess the information supposed. The court adjourned at 8 o'clock until to-morrow morning, with the understanding that the arguments should occupy but four hours.

REDUCED RAILROAD RATES.

Special Facilities for the Coming Educational Convention.

SAN FRANCISCO, February 3.—General Passenger Agent Goodman, of the Southern Pacific says that in some respects the excursion rates for delegates to the National Educational Association Convention that meets in this city next July, are the most favorable ever made across the continent. The rate from the Missouri River is $60; from Chicago and St. Louis to the Missouri river, $12.50, and from the Atlantic seaboard to Chicago and St. Louis $20. These are round-trip rates, and by the figures given it can be seen that the total of the trip from New York to California and return is $92 50. The regular excursion rate from New York for the round-trip is $138.50.

A POUND OF WOOL.

Interesting Statistics as to the Cost of Handling It.

BOSTON, February 3.—The Boston *Commercial-Bulletin* has collected from wool growers in all parts of the country statistics showing the cost of growing and raising a pound of American wool. In summing up the result, the *Bulletin* will say to-morrow editorially: "American fine wool costs the grower, without his own profit or freight to the mill from 1 to 15 cents more scoured a pound, according to grade, than a corresponding grade of free foreign would cost the American manufacturer. American medium wools similarly cost the grower from 1 to 3 cents more scoured than foreign imported wool would cost the manufacturer.

Three Appointments.

SACRAMENTO, February 3.—Charles Worth has been appointed notary at Los Angeles.

The Governor has issued a letter for the office of Commissioner of Deeds to James E. Hunter, of Los Angeles, on Governor Ross, of Texas.

The Governor has appointed Capt. A. S. Davidson, of San Bernardino, Chairman of the Republican County Committee, Trustee of the State Normal School at Los Angeles, vice Byron Waters, resigned.

Raising the Quarantine.

HELENA, Montana, February 3.—Governor Leslie has issued a proclamation so modifying the quarantine proclamation of April 28, 1887, that the restrictions are removed from cattle brought from Vermont and Virginia and from all parts of Illinois save that portion of Cook county quarantined against by the Governor of Illinois on July 9, 1887.

RIOTING STRIKERS.

Disturbance at the Pennsylvania Coal-Fields.

NON-UNION MINERS ATTACKED.

The Police Come to Their Assistance and a Bloody Fray Ensues.

[Associated Press Dispatches to the HERALD.]

SHENANDOAH, Pa., February 3.—When the non-union miners left their work at Shenandoah City and went to the Shenandoah colleries at 5 o'clock this evening, a lot of strikers, Polanders, attacked them with stones. Six coal and iron police went to their assistance, seized one of the strikers and were taking him away when the Polanders rescued him and handled the officers roughly. The latter broke away and started for the city followed by strikers who now numbered about two thousand, attacking all those coming from the mines. The police returned and a sharp fight ensued. Two prisoners were captured; one was taken to Squire Shoemaker's but the other was rescued. The police

FIRED INTO THE CROWD

And Mike Heffron received a ball in the mouth, John Cather was shot in the arm, and a Polander behind the ear. Two policemen were arrested by Borrough's officers for firing, and were taken before Squire Monahan, where a Polander swore out a warrant charging them with assault with intent to kill. On advice of Captain Christian, they pleaded guilty, and are awaiting committal to the Pottsville jail. The offices of the two magistrates are surrounded by a mob eager to lynch the officers. The town is wild with excitement and the men mad with passion and drink. The whole of the coal and iron police and Pinkerton men will be massed here to-morrow. Three of the fire companies of the town were sworn in by the sheriff to-night as a posse; Borrough's police is also swearing in special officers. There was another shooting to-night, but the man was not injured. His assailant has been arrested.

A BOLD BRITISHER.

He Defies the Virginia Authorities and Escapes.

NORFOLK, VA., February 3.—Reynold Bros. commission shippers yesterday filed a libel suit and applied to Judge Hughes of the United States district court to have the British steamship North Erin bound to Liverpool attached, the captain having refused to sign drafts for disbursements amounting to $150,000. An U. S. Marshal was dispatched, engaged a tug and intercepted the steamer yesterday evening. When he attempted to board her the captain ordered the men not to allow him. Two attempts failed and at the third when a ladder had been placed against the vessel's side and the Marshal was ascending he was thrown off and he fell into the tug. The steamer then proceeded on her way taking with her one of the Virginia pilots who was on board.

A TOTAL LOSS.

Sawmills Destroyed by Fire at Port Blakely.

SEATTLE, W. T., February 3.—Two mills at Port Blakely, the port on the opposite side of Puget Sound from Seattle, and which were the largest of this part of the country, took fire about 8 o'clock this morning and by 11:30 were burnt to ashes. The fire started from a hot-box where the wind from the belts caught and fanned the blaze the whole length of the mill, so that the workmen had barely time to get out before the mill was enveloped in flames. From the start there was no chance of stopping the fire. All the out-buildings were saved, owing to the wind being favorable. About 230 men are thrown out of employment. The estimated loss is $250,000, and there is no insurance. The company will rebuild two mills, one in place of the old one, and another somewhere else.

THE FISH COMMISSION.

Sherwood Resigns—J. Downey Harvey Removed.

SACRAMENTO, February 3.—T. J. Sherwood, secretary of the State Board of Fish Commissioners, resigned to-day on account of the unsettled condition of affairs in the commission. The Governor has refused to accept his resignation. He has appointed Jno. K. Orr, of San Francisco, fish commissioner vice J. Downey Harvey, of Los Angeles, removed. The cause given for the removal of Harvey is his inattention to the duties of the position. The Governor has directed that a thorough and searching investigation be made into the workings of the commission, particularly in financial matters.

IN HOT PURSUIT.

Mexican Officials on the Track of a Gang of Desperadoes.

NOGALES, A. T., February 3.—Immediately after the attempted robbery of the Mexican custom house and the assault upon the guard a party of thirty custom officials was sent after the gang. Late last night one man was arrested, and lodged in jail. He is from Hermosillo and belongs to a hard gang of robbers and cuthroats. The man refused to give any information regarding his pals. It is believed that the pursuing party will not stop until they break up one of the worst gangs of robbers in the state of Sonora.

Lying Idle.

SAN FRANCISCO, February 3.—Two of the De Campo steamers, the Guatemala and Nicaragua, are still in port awaiting orders. The agents are not taking freight and have not fixed a date for the departure of the steamers, and they are in need of coal.

Riverside's Report.

RIVERSIDE, February 3.—Application for space for fruit exhibits at the citrus fair are coming in so rapidly that the committee fear they will not have room enough in the vast pavilion. The decorations of the pavilion are about completed, and the committee will commence placing the fruit in position to-morrow morning. The reception committee starts to-morrow to meet the excursion at Mojave.

A fine flow of artesian water has been struck in the city limits at a depth of 25 feet.

Iowa's Railroad Rates.

DES MOINES, February 3.—When Young's bill, making passenger fare 2 cents per mile, came up in the State Senate this afternoon a large number of petitions protesting against the passage of the measure were read. Later on a decided stir was created when Young read a letter signed "A Mechanic's Wife," asserting that workmen were compelled to sign the protests. The bill is in the hands of the committee.

Spencer's Shooting Scrape.

SAN DIEGO, February 3. — Chas. Spencer, who accidentally shot and killed T. E. Farnsworth, proprietor of the Oxford hotel at Coronado Beach, on Tuesday night, was released by the court to-day. He was immediately arrested on a complaint sworn out by by L. L. Watson, with whom he had previous trouble, charging him with murder, and held in the sum of $5000 to answer on Friday next.

A California Claim.

SACRAMENTO, February 3.—Governor Waterman has written a letter to Captain John Mullan, acting as special agent of the State of California at Washington, D. C., in the collection of a claim against the Government in favor of California, in which he says that Mullan is acting in his private capacity and without his sanction, and that he prefers to leave the mater to the representatives of California in the Senate and House.

An Oil Trade Monopoly.

ST. LOUIS, February 3.—The entire plant of Wm. Washburn & Sons, of this city, dealer in oil, etc., was sold to-day to Waters, Pierce & Co., which is the local branch of the Standard Oil Company. Washburn & Sons ran the tank lines in the South, and particularly controlled the oil and turpentine product of those States. The Standard Oil Company is now without any competitors worthy of mention in the South.

Cattle Poisoned.

TUCSON, Ariz., February 3.—One hundred and fifty head of cattle died on the Empire ranch during the cold snap. As the thermometer never fell more than fifteen degrees below freezing point, it is generally believed that the deaths must be attributed to drinking from the overflow of the Total Wreck mill tailings, which were impregnated with silver.

The Panama Canal.

PANAMA, February 3.—With the advent of the dry season, work has been generally resumed on the canal, and there is great activity on both sections. At the important points preparations are being made for uninterrupted work day and night. Electric lights have been introduced for that purpose.

Seriously Hurt.

SAN FRANCISCO, February 3.—James H. Little, an expressman, was coming down the steps of the Custom House this afternoon, carrying a box of coin which he was to take to the Sub-Treasury. He slipped and fell and the heavy box struck him in the side breaking several ribs.

Guilty of Murder.

SAN FRANCISCO, February 3.—Philip O'Brien's trial for the murder of Thomas Rosengrave on October 23rd, was concluded to-day. The jury, after about two hours' deliberation, returned a verdict of murder in the second degree. The judge set to-morrow week for the passing of sentence.

Powell's Plea.

SAN FRANCISCO, February 3.—The Supreme Court listened to-day to the application of L. A. Powell, the man who killed Editor Smith, of Redwood City, for admission to bail. The matter was argued, and after being submitted, Powell was remanded into the hands of the Sheriff of San Mateo county.

Colored vs. Chinese Labor.

RED BLUFF, February 3.—Rev. Dr. Pettey and Senator Mabin, colored, of North Carolina, spoke in the Baptist Church last night on the subject of supplanting Chinese with colored labor. They go to North Carolina in about ten days and will return with fifty or sixty.

The Horticulturists.

SANTA ROSA, February 3.— By special train a large number of the American Horticulturists passed up the road going to Guerneville, returning to Santa Rosa about noon. They were escorted to the Athenæum, where the ladies had prepared a banquet. Several addresses were made.

Northam's Estate.

CHEAP SUGAR.

War Between San Francisco Refineries.

MORE REDUCTIONS PROBABLE.

The Present Prices Lower Than Those Now Quoted in New York.

[Associated Press Dispatches to the HERALD.]

SAN FRANCISCO, February 3.—War has opened between the two sugar refining companies. Before the cut was made the American Company asked 7 cents for Golden C, and 7¼ cents for extra C. The California Company's schedule called for 6¼ and 6½ respectively. Last night the American Company made a reduction of one cent per pound on each variety, placing the rate ¼ of a cent lower than that of their rivals. To-day the California Company took up the challenge and quoted golden C at 5¾, and extra C at 6. It is believed that these reductions will be promptly met and that prices will drop even lower than last season. The refineries are striving for the trade of the fruit canners as well as the general public, and have succeeded already in making sugar cheaper here than in New York. It is thought that the price of best white varieties will decline to 5 or 5¼ cents per pound. A telegram from New York announces that the Secretary of the sugar trust is on his way to this city to induce one or both refineries to enter the combination, but it is stated on authority that neither companies will join the trust.

CROOKED WORK.

Developments in the Ohio Tally Sheet Forgeries Case.

COLUMBUS, O., February 3.—Algernon Granville, of Chicago, one of the defendants and witnesses for the State in the tally-sheet forgeries cases, was placed on the stand this morning. In 1885, he testified, he did short-hand work for Montgomery. He made a tabulation of figures for Montgomery on the Wednesday or Thursday following the election, and made a mistake of 100 votes in one of the townships, which Montgomery discovered and thus ascertained his defeat.

Defendant said that they must do something in a short time. Allen O. Myers ran into the office and said that John R. McLean was bound to be United States Senator, no difference what it cost; that the Legislature was Republican by one majority, and if they could secure the election of Ed. Young, from Franklin county, the Legislature would be one Democratic, and that would elect McLean; that the only way to do this was to fix the returns; that they had done the work before the election in Hamilton county, but it could be done afterward here; that he wanted to give the Republicans a dose of their own medicine for the performance of 1876 in the South, and asked witness to go ahead with the work as he was an expert penman.

THE COMING CONVENTION.

Congressmen Interviewed Regarding Its Location.

SAN FRANCISCO, February 3.—The *Examiner* this morning prints an interview with one hundred and seventy-five Democratic members of Congress in regard to the place of holding the next National Democratic Convention. Thirty-five members express themselves in favor of New York City, for the first choice. Thirty-four are for San Francisco, thirty for Chicago, twenty for St. Louis, and fourteen for Cincinnati. Other members are non-committal or divided among the cities of Baltimore, Philadelphia, Boston, St. Paul, Indianapolis, Washington, Louisville and Richmond.

San Francisco received the majority of the votes for the second choice. The result shows that the strongest feeling for San Francisco comes from the South and West.

A Legal Loophole.

SAN FRANCISCO, February 3.—Walter Neustadt, W. J. Pilcher, Simon Hamberg and Mary Ellis, the half interest swindlers indicted by the grand jury yesterday afternoon were brought before Judge Toohy this morning on a writ of habeas corpus and he ordered them discharged from custody, "it appearing that the offences charged in the indictment upon which the petitioners are in custody are barred by the statute of the limitation"

A Dangerous Lunatic.

NEVADA, Cal., February 3.—Robert Bennett, a lunatic, was brought from Grass Valley yesterday and placed in a cell at the county jail with two prisoners. During the night Bennett had a crazy fit and attacked one of his cell-mates named Patrick McNulty, threw him upon the floor and bit him on the face and body in a frightful manner. McNulty was finally rescued by the jailer. His condition is precarious.

MARINE REPORTS.

A Complete Statement From San Pedro.

GOSSIP OF THE RAILROADS.

J. A. Fillmore and Other S. P. Officials Expected To-Night. Notes and Personals.

Following will be found a complete report of the business of the Port of San Pedro for the month of January. It is the most complete report ever issued from that harbor and gives the names of the vessels that touch there, their cargoes, masters, destinations and everything connected with their movements. Such a report will be issued every month during the coming year, and is prepared by Mr. W. H. Moulthrop, the Southern Pacific Company's agent, who keeps a record of the movements of every vessel that comes to San Pedro:

Fillmore's Party Coming.

Mr. J. A. Muir, Assistant Division Superintent of this division of the Southern Pacific Company, left on No. 19 yesterday at 1:30 P. M. for Sumner, where he will meet Mr. Fred. Crocker, General Superintendent S. A. Fillmore, Chief Engineer Wm. Hood and Superintendent of Track W. G. Curtis, and will return with them to this city this afternoon, when a tour of inspection will commence.

Notes and Personals.

No. 20, due last night at 7:30 o'clock from El Paso, was reported two hours late.

Maj. H. W. Pond, traveling agent of the Santa Fé Company, is in the city.

Yesterday morning's San Diego express, due at 7:43 o'clock, arrived on time.

No. 17, from San Francisco, which is due at 1 P. M., was 20 minutes late yesterday.

Thursday's overland train arrived at 2 A. M. yesterday morning, being five hours late.

No. 19, due in this city yesterday morning at 5:30 o'clock, from San Francisco, arrived on time.

The Santa Fe overland train, due in this city last night at 9:05 o'clock, was reported two hours late at 3 P M.

The frame work on the Santa Fe's new freight office is now nearly completed so fast are the carpenters putting it up.

The Santa Fé company is now selling tickets over its own road to Denver and Colorado Springs and other points via Pueblo.

Everything was unusually quiet at the Santa Fe depot yesterday afternoon when the HERALD's representative visited that place.

The Santa Fe Company's Employe's Association dispensary is now nearly ready for occupation, and presents a most attractive appearance.

The Hesperia Land and Water Company's excursion left the Santa Fe depot yesterday morning at 8 o'clock with five coaches, which were covered flags, etc.

All the Santa Fe ticket agents are feeling quite happy, as they have just finished their monthly reports and feel relieved to know that the arduous task is over.

The cable for the Second Street Cable Company is now in El Paso and will probably be brought to the city to-night on the passenger train which is due here at 7:30 p. m.

Owing to repairs, the regular Pullman car "Bombay," which runs between this city and San Diego, will be laid off for a few days and the elegant sleeper "Socorro" put in its place.

Tickets have been placed on sale over the Santa Fe route via Perris to San Jacinto, single and round trip. The rate one way is $3 95 and for the round trip $7 80, good for thirty days.

There has been a reduction of $1 in the regular second-class fare from this city to New York and Boston via the A., T. & S. F. R. R. This makes the rate to New York $61 50 and to Boston $63 50.

Nine car-loads of coal from the Gallup mines arrived in this city Thursday night and w s delivered to the consignees, as published in the HERALD a short time since. It will be sold at the old rate.

Mr. R. K. Tabor, Freight and Passenger Agent of the Atchison, Topeka and Santa Fe Railroad, and Kansas City, Lawrence and Southern Kansas Railroad, with headquarters in Lawrence, Kan., is in the city.

Yesterday morning one hundred and seventy-nine car-loads of freight, destined for Los Angeles, were received at Yuma. Four engines were sent to that place to haul the cars here and will do so as fast as possible. A large amount of the freight is from Deming, N. M.

Ticket rates for the new branch of the Santa Fe Company, which runs from Santa Ana to San-Juan-by-the-Sea, have just been received. They read from this city to San Diego $3.50; to Modjeska, $3.60; to Aliso, $3.85; to Capistrano, $3.80, and to San Juan, $3.90. These tickets go via San Bernardino.

Caledonian Club.

The election of officers of the Caledonian Club took place Thursday evening, when the following were elected: President, J. G. Maclean; vice-president, John Spears; secretary, Robert Hardie; treasurer, A. S. McDonald; financial secretery. P. S. McKenzie. Directors, David Mitchell, John Cowan, Alexander Craw. Auditors, Geo. M. Crome and John McLennan. Piper, Gregor MacDonald. When the business was finished Bobbie Burns gave an exhibition of his skill in dancing the "Sword Dance" and Highland Fling. He is certainly one of the most artistic little dancers who has ever visited this coast. He is to appear at the coming celebration of the anniversary of Robert Burns by the Caledonian Club, whose advertisement appears in this paper.

A Musicale.

The fourth musicale at the music rooms of Prof. Stamm Thursday evening furnished the occasion for those fortunate in being present of hearing many classical selections rendered in a highly acceptable manner. Much progress in the pupils was noticed. Amongst those participating were Mmes. Gibbons and Knox, the Misses McCollum, Percival, White, Hubbard, Knepper, Meyer, Pepper and Masters Stamm and Walker and the Messrs. Stamm, Louis Heine and Prof. Borneman. And amongst others present were: Mr. and Mrs. Frank Walker, Dr. and Mrs. G. A. Mitchell, Fathers Antill and Murray, A. A. and F. Z. Hamilton, Dr. and Mrs. Knepper, Stoneman, Sampson, etc.

On to Ramona.

Until the completion of the Rapid Transit railroad from Los Angeles to Ramona in the next sixty days, carriages will be run from the city office, No. 55 North Spring street, for the benefit of those wishing to invest in this charming suburb. Be sure and leave your name at the office in the afternoon and avoid crowded vehicles.

The new addition to the Hotel Oxford is now complete, 50 new and handsomely furnished rooms, and is now open to the public.

The Granite Bank of Monrovia will open for business on Monday, February 6th. E. F. SPENCE, President. J. I. CASE, Vice-President.

The Southern Pacific

Railroad will cross the Santa Fé at Elsinore. Buy Elsinore property at the Armory Hall Auction this afternoon and evening, February 4.

CATARRH!

NO OTHER DISEASE HAS ENTAILED as much suffering or hastened the breaking down of the constitution as

NASAL CATARRH.

The sense of smell, of hearing and of tasting, as well as the voice and mind, are more or less affected and eventually yield to its destructive influence. The poisonous germs are distributed over the system, destroying the vital forces and breaking down the most robust constitutions.

MRS. MURPHEY'S CASE

Dismissed From Lack of Evidence to Convict.

The case of Mrs. Ella Murphey in which she was placed on examination before Justice Taney on a charge of adultry, was called at 10:30 A. M yesterday, and after hearing several witnesses the case was dismissed on motion of Deputy District Attorney Dunlap.

The defendant manifested no measiness from the first, but on the contrary was all smiles. During the entire examination she smiled blandly at witnesses and prosecuting attorney as if she quite well understood the outcome of the trial.

Mrs. Hughes was first introduced who swore she resided in East Los Angeles and rented the room to Mr. Burton who represented his name to be Murphey. He stated he desired the room for himself and wife. Witness did not know whether he and Mrs. Murphey occupied it or not, as she paid no attention to them.

Officer Richardson testified that he knew the defendant and Burton alias Murphey. He was informed of the suspicious circumstances of their assumed relations and watched them one night. He knew they occupied the same room all night He produced a marriage certificate showing that the defendant was the wife of a Mr. Murphy. He was well acquainted with defendant's husband, who lived in Stanislaus county, California. Knew Mr. Burton, who was introduced to him as Mr Murphy, the husband of the defendant.

The greater part of the evidence introduced was ruled out on the technical grounds that the statements and representations relative to the defendant being the wife of Burton were not made in Mrs. Murphey's presence.

Some time was spent in waiting for Mrs. Reed, the lady who swore out the warrant for Burton's arrest on a charge of larceny. The district attorney finally stated to the court that it was his opinion that Mrs. Reed's evidence would not be sufficient to warrant holding the defendant. The court thereupon dismissed the case and discharged the defendant.

ASSOCIATED CHARITIES.

The Roll Signed and Constitution Adopted.

The Charitable Societies met yesterday at the Woman's Home pursuant to adjournment, for the purpose of considering the constitution drafted by the Committee elected last week. The meeting was called to order by Dr. Schreiber. Mr. Williams moved that Miss M. M. Fette, act as secretary during the absence of Mrs. Haskell, carried. Mrs. Fette then read the minutes of the last meeting, which were accepted on motion of Mr. Williams, Mr. Black man, the chairman of the drafting committee was called on for a report. The following is a synopsis of the constitution adopted:

The name of this society shall be The Associated Charities of Los Angeles. The officers of this association are to secure co-operation among the different charities of Los Angeles in practical measures for the prevention of pauperism, the promotion of thrift and the more certain relief of the worthy poor; to gain a more perfect knowledge of the poor, with a view to discover their true needs to teach them how to reach health and independence, and to convey to them friendly social influence wholly departed from almsgiving. To secure a more efficient distribution of relief among the worthy poor, between voluntary and official charity, to direct the suffering to the institutes adapted to their special forms of needs, and to place the results of this meditation at the disposal of organized or private benevolent persons. To prevent indiscriminate almsgiving and to detect imposture, by making work the ground of all relief to the able-bodied. The methods by which these objects will be sought are the maintenance of a central bureau or clearing house of charities, in which every case relieved either by official charity or private associations, shall be registered.

The constitution is nearly an exact copy of the one adopted by the Milwaukee Society. It provides that any person may become a member by paying a membership fee of $1. On motion of Mr. Williams the books were opened, and the following persons joined yesterday:

W. R. Blackman, Mrs. C. Ducommun, Mrs. M. A. Gibson, J. O. Maclean, Mrs. F. C. Howes Mrs T. B. Clark, Mrs. D. G. Stephens, E. S. Williams, Mrs. H. G. Bath, Miss M. J. Dodsworth, Dr. E. Schreiber, Mrs. R. M. Parcels, S. M. Rowe, Miss M. M. Fette, Frances E Baright.

Mr. Williams moved that a nominating committee of five persons be elected in co formity with the constitution to nominate fifteen candidates for Councilmen and solicit a representative from every church and charitable society who may be entitled to vote on the by-laws by paying a membership fee of $5. Carried; and the following persons were elected: Mrs. D. Ducommun, Mrs. Gibson, Mrs. Stephenson, Dr Schreiber and Mr. Maclean. These will report at the next meeting to be held next Thursday at the Woman's Exchange.

English Girls.

The expected contingent of English girls recruited by Mrs. M. E. Parker arrived in this city Thursday afternoon. Too much credit can scarcely be given to the management of this excursion by the Southern Pacific Company. They were met at the depot by a committee of ladies and conveyed to the Montrose, and after entertainment and a night's rest most of them went to places previously provided. They are "workers" and of a superior class. Two, a mother and daughter, are still without homes, and information of them may be obtained through Mrs. Dr. G. H. Mitchell.

The Rawson Party.

On Thursday evening Miss Flora Rawson gave a very pleasant party to her many friends at her home on Beaudry avenue. The house was handsomely decorated and no pains were spared to make everything pleasant for the company. The evening was spent in dancing and about 11:30 supper was announced, and every known delicacy was found on the tables in the dining room. The following is a partial list of those present: Misses Florence, Du Puy, Lankershim, MacDonald, Haynes, Rawsons, Benedict, Whitelaux, Messrs. Haynes, Perkins, De Van Lantz, Du Puy, MacDonald, Robinson.

Our Sympathy Goes Out to Them.

Our readers will form some idea of the severity of the weather in the Northern Citrus Belt from the extracts from a private letter we herewith append. We sincerely sympathize with our friends in Sacramento Valley in the great distress this hyperborean season must have brought to them:

SACRAMENTO, January 29, 1888.

* * * There is a great deal of suffering in this section, principally measles, scarlet fever and pneumonia. We have been busy trying to put in our crop, but not with marked success. Since the last storm we have not been able to plow, for the ground has been frozen so hard it was impossible to run the share through it. Ice froze thick enough to hold up a horse on it. Last night was the first night without frost for the last ten days. I rather fear that the bottom has been knocked out of this belt as the natural home of the orange by the Arctic winter we are going through. E. D. C.

While on this subject, we might as well pay our respects to the Munchausenisms of one J. C. Mixon, who has recently returned to St. Helena from Pasadena. This ingrate who came down here to tide over the winter, and who had steady employment at his trade at the rate of five dollars a day, pours out his gratitude in the St. Helena *Star* in the shape of denunciations of our section—of its climate, its prospects and its cost of living; and then falls into a rhapsody of praise over his end of Napa Valley, which he designates as "God's country." He complains that ice had formed here on several occasions, and that snow covered the mountains down to the edge of the valleys. He might have written this sort of rot with the thermometer at 18 degrees, the point it reached in his "God's country." This fellow is dissatisfied with everything he saw here at a compensation of five dollars per day, and assumes the rôle of a prophet by predicting that our ephemeral prosperity will result in a crash ere long. Of course he knows it all. Words cost him nothing. While Prophet Mixon was turning his bile into printer's ink, the people here were showing their faith in the permancy of the prosperity of the county in a way that speaks louder than words. During the very month which vomited our splenetic friend back into St. Helena the recorded sales of property here footed up over six and a half millions. Of course the men who thus backed their faith in Los Angeles are fools, and Mixon knows it all. It seems that our disgruntled friend had to put up with a 10x10 room while he was getting his five dollars a day here, and to pay the enormous sum of $16 a month for it. Well, he may console himself where he is; for he can doubtless get ampler quarters in St. Helena for the same money, and much less money to pay it with. Whilst we regret to lose Mixon we shall not hold it against St. Helena that she has taken him away from us. We shall try to survive the calamity.

Our Water System.

Mr. Lambie, City Engineer, has made a most sensible recommendation to the Council in reference to the water system. Years ago, when large areas of the municipality were devoted to horticulture, an ordinance very proper for the period was passed, looking to putting in a complete system of cement pipe to convey water to these districts for irrigation purposes. A contract was entered into in order to carry this law into effect, and since then a good deal of work has been done in the premises. In the meantime the change already going on increased at an ever-accelerating ratio. The population grew beyond all precedent and the cry for more residence lots went up loud and strong. The vineyards by the acre went down before the surveyor's gangs and the orange trees followed in the wake of the vines. The horticultural portions of the pueblo have become thickly settled. There is no longer a demand for water for irrigation, but there is a great cry for this necessary adjunct of domestic life. Now the cement pipe will not do to carry water for domestic uses. It will not bear the pressure. Mr. Lambie now recommends that a change be made in the programme so as to make the water system conform to the exigencies of the new era. He would replace the cement pipes by iron of sufficient strength to bear the pressure suitable to a residence section of the city. The irrigation system has been at best a tax on the city's finances. At the best of times it netted a deficit to the municipality. The use of the water for domestic purposes will be a far different proposition in that respect. Should citizens be taxed no more than $1 per month for each family, there will be a net gain under this new *régime*. The matter comes up to-day before the finance committee of the Council having been referred back to this body at the last meeting of the municipal legislators. It is to be hoped that the question will receive an enlightened treatment at the hands of the committee.

Senator McKenna on the Tariff.

How different the whole tone and tenor of Senator McKenna's discussion of the tariff from that of Senator Sherman! The West Virginian Democrat rose to the plane of true statesmanship. There is not a word of appeal to any blind prejudice or twisted partisan bias. He addresses the reason of intelligent people, and asks for a candid consideration of the question with regard to its bearings on the interests of the public in general. In the views of the Democratic Senator there is not a syllable to justify the oft-repeated and mendacious charges made by the other side of the House, and meant to deceive the people into the delusion that the proposition to reduce the revenue by means of tariff revision is synonymous with Free Trade. Senator McKenna says all that is aimed at is to make the receipts at the Treasury conform to the needs of an honest and economic administration of the Government. He accepts it as an axiom that no Government is justified in imposing on the people a burthen of taxation in any form greater than is requisite for its administration. He thinks both internal and import taxes should be modified so as to stop the heaping up of surplus revenue beyond the just needs of the Government. He would not remove the tax totally from tobacco while leaving that on wool, salt, lumber and coal in full force. Nor would any broad-minded statesman, with the best interests of the people held patriotically in view, come before an intelligent constituency with any such proposition. The weakest sort of demagogy together with a subservient interest in the purse-proud and heartless monopolies built up during the term of Republican sway are the only promptings which would suggest such an idea. One has but to consider calmly the relative importance of the solacing pipe and of the life-preserving shirt or blanket, or that of the protecting shingle on the roof, or indispensable coal beneath the dinner pot, to decide on this point.

Senator Sherman took the floor with his proverbial phlegm, his cold disragard for facts, his low appeal to ignorance, and made a characteristic attempt at self-defense. Partisan politics crop out in his every word as the key-note of his utterances. He starts out with a falsehood as to the attitude of the Democratic party on this question of tariff revision. He claims there is reason for his change of face on the internal revenue proposition. But it is not a good one, and he did not give his true reason. The reason is that something must be done in the way of tariff reform. The people are becoming better informed in this matter, and there is a popular demand that the surplus be cut off. Bankers, merchants, men in all branches of business feel the check the withdrawal and locking up of $10,000,000 per month puts to legitimate enterprises. The only way to meet this demand of the people and at the same time save the interest of the big monopolies, is to do away with a part or all of the internal duties. These are levied only on tobacco and spirits. Free whiskey and free cigarettes are preferred by Senator Sherman and his like, before any proposition which threatens the monopolies which scale down the poor man's wages with religious regularity and pocket all the profits of the high protective tariff—excepting a liberal check made out each election to secure the monopolistic Republican party in power. That is the true inwardness of Mr. Sherman's interest in the tobacco growers of Kentucky. The people are getting to know Mr. Sherman and his sort pretty well.

AFTER all, there is a most excellent chance of getting the Democratic National Convention to meet at San Francisco. Some time ago we were solemnly told by all the solemn owls in the country that the President had actually uttered an imperial ukase in favor of the meeting being held in Gotham. If we believed those of the tribe of Dogberry, no man in the National Committee "dared disobey the dictates of the boss," as Mr. Cleveland was called. These gentlemen seem to know more about this matter than did these boss-creators. From all present appearances the delegates are much divided in their opinions. Some favor New York, others want to go to Chicago again. St. Louis and Cincinnati find favor in some eyes—and San Francisco is not a whit behind any city in the number of those who would honor her with the Convention. The Bay City is the second choice of nearly all who have spoken. On this showing she stands the best chance of winning the race as it is now.

A COMMITTEE of the Board of Supervisors has visited Anaheim for the purpose of viewing the wash north of that town to select a place for a bridge between Anaheim proper and North Anaheim. This latter locality, from Orangethorpe on the west to the Santiago cañon on the east, is a long stretch of country. It is, moreover, a very fertile and rapidly improving section. There are half a dozen new centers of population growing up along the mesa. One bridge will not do for them all. At least two viaducts should be built across the wash—one at Palm street, and one about East street. The money necessary to do this would not be a large sum, and the supervisors should grant it for so useful, not to say necessary a purpose.

WOULD-BE Congressman Lynch says in his paper that the whole benefit of the tariff on anthracite coal is greedily pocketed by the rich mine-owners, and does not benefit the laborer. It may be cruel, but it appears necessary to remind the statesman who, with the assistance of Mr. Cleveland, is just now engaged in regulating the affairs of this country, that there is no protective tariff upon anthracite coal. So far as this kind of coal is concerned, the Pennsylvania "barons" own the earth. Anthracite is not mined anywhere else.—[San Diego Union.

The San Diego paper makes its argument in this instance by its usual logical methods. It simply falsifies. Mr. Lynch is not at present writing for the HERALD. He is in Washington. The word anthracite is injected into the matter referred to by the *Union*. The HERALD did not use it. Falsehoods are always "cruel," excepting when they are stupid as this is. They are never necessary—not to people with a good cause and sufficient information. The *Union* of course is outside both specifications.

MR. JOHN F. SWIFT always did have the faculty of saying the wrong thing at the right time developed in him in most delightful measure. His great exposition on the coming campaign, we observe has at once set the grand old party of great moral ideas most violently by the ears. One side says it is wisdom in chunks, and the other thinks it is the most abominable bosh. And of such have been the outgivings of Mr. Swift so many years that the memory of the 49-er runneth not to the contrary.

THE latest venture in journalism hereabouts is the Long Beach *Journal*. It is a neatly printed and newsy little sheet.

Anti-Saloon.

A joint meeting of the executive and nominating committees of the Citizens' Anti-Saloon movement, was held at Dr. Widney's office yesterday afternoon at 3 o'clock, Dr. J. P. Widney in the chair. The question of the special election to be held in the Second Ward, to fill the vacancy in the Council, was discussed. A resolution was offered to appoint a committee of four to wait on both the Democratic and Republican Central Committees with the offer that if a candidate pledged to an anti-saloon ordinance is placed on either ticket the anti-saloon movement will place no candidate in the field, and will support such a candidate. If, however, neither party will put such a candidate before the people, the anti-saloon movement will themselves put a man in the field. The resolution was carried unanimously.

The following were appointed a committee, and instructed to see the Democratic and Republican Committees, and report not later than February 10th: J. P. Widney, G. C. Salisbury, Mrs. L. D. Moore, A. M. Hough.

On motion the meeting adjourned, subject to call by the Chairman.

City Missionaries.

The city missionaries of the Congregational Churches of this city have permanently organized with the following officers H. W. White, President; A. W. Kennedy, Vice President; W. R. Blackman, Secretary; J. B. Brown, Treasurer; Rev. E. S. Williams, Superintendent and City Missionary. They have engaged the Opera House for Sunday mornings and evenings, where they will hold meetings for evangelical purposes. Rev. C. H. Uzzell will conduct the meetings as soon as he is relieved from his church. Rev. Robert G. Hutchins, of Oberlin, Ohio, is expected to supercede Mr. Uzzell in his present pastorage.

The Native Sons.

District Deputy Grand President Homer C. Katz installed the officers of Invincible Parlor, No. 74, at Anaheim, on Thursday evening. The parlor is in a flourishing condition, both officers and members taking an active interest. Mr. F. C. Smythe is the president and Mr. O. R. Lindke is the secretary, a position he has filled ever since the parlor was instituted some two years ago.

The native daughters of Anaheim will shortly form a parlor in that city.

La Esperanza Parlor, No. 24, Native Daughters of the Golden West, met last evening in Opera Hall.

BOARD OF HEALTH.

Business Transacted at the Meeting Yesterday.

The Board of Health met in regular session in the Mayor's office at 2 o'clock yesterday afternoon, Mayor Workman, President of the Council Humphreys, Messrs. Hanley and Gibbs and Dr. Hagan being present.

The proceedings of the previous session were read and approved, and Dr. Hagan reported that the man named John Freeman, who had been reported to the Board as having contracted the smallpox in San Francisco, and who had since resided at No. 589 East First street, had been removed to the pest-house, and the usual precautions taken in in the way of vaccination, fumigation, etc., to prevent the spread of the disease. There were no new cases to report, and two of the fou patients at the pest-house were convalescent, but were still kept out there as a precautionary measure.

Dr. Hagan stated that he understood the Health Officer had been harshly criticised on account of the death of the little colored girl at the pest house, and he would like to explain to the board that there was not the least foundation in fact for the charges. When the mother and child were discovered to be sick with the smallpox they were living in a tenement house where several other parties had to use the same closets, water, etc., and that it was deemed more advisable to move the sick people than to turn the whole of the rest of the inmates out of the house. When they were removed to the pest house everything possible was done to make them comfortable and the Health Officer himself attended to the removal. The doctor added: "I could not have taken greater precautions had the child been my own, although I knew at the time it would be impossible to save the little one."

Mayor Workman asked Dr. Hagan how the condition of affairs were this year in relation to the disease as compared with the same time last year. Dr. Hagan said that last year, in the first two months of the existence of the disease, there had been 100 cases reported. This year there were but ten on the books, and no other cases were in existence in the city. He was of opinion that the prompt measures taken this year had prevented the spread of the disease, and that there was nothing to fear as long as the cases from other places were taken to the pesthouse as soon as they arrived.

The bill of Caukin and Hass, architects, for plans for a new city hospital was laid on the table on motion of Mr. Humphreys. The reason for this was that the firm had been asked to make plans for a $6500 building, but that when the bids were opened it was found that the lowest bid amounted to $13,700. The salary of Inspector McAvoy was raised to $100 per month. The matter of drawing up the contract for the erection of a new hospital was laid over one week to enable the board to inspect plans for a portable hospital. Mayor Workman was instructed to make an arrangement with a fertilizer company for the disposition of the dead animals of the city. The chief of police was requested to keep watch of the dead horses and catch the owners when possible, and make them take care of their horses. H. W. Patton, Secretary of the Board, tendered his resignation. It was accepted with regret and a vote of thanks was tendered him for his efficient and faithful services.

Adjourned until Monday afternoon when the election of health officer will be the special business.

THE ROSE CASE

To Go to the Jury on Monday Next.

The trial of the Rose case was resumed yesterday at 10 A. M., before Judge Cheney by the introduction of an officer who testified to having seen the defendant on the afternoon of the eighth of November, the day on which the crime was alleged to have been committed. He was running from the direction of Specht's tent, but turned and run in an opposite direction when he saw witness. The prosecution here rested its case.

Miss Anne Mullie testified to the good character of the accused. She had known him for a year. Became acquainted with him while passing a garden or park, where he was cultivating plants. Rose afterwards visited her often and at one time they were engaged to be married — but witness was very sorry for it now.

Thos. H. Rose was next introduced on his own behalf. He told his story in a peculiar, disconnected way in substance as follows: Well, on the 8th of November, 1887, I went to Mrs. Specht's tent to borrow a hatchet. I had never been there before. The lady yonder then fell to talking to me, and she asked me if I had a girl. I told her, "Yes, mum." I showed her a picture of Miss Mullie. She said, "I'll show you some pictures," and then gave me several to look at. We were standing near a trunk. She then wanted to know of me if I could tell fortunes. I told her, "No, mum." She then took my hand, and in looking at it fell over on me, pushing me down on the trunk. I said, "No, mum, I'm going to get married." She wanted to know what I wanted to get married for. I said, "Oh, I am at work down here and want a wife." I got up and went away right off. At 2 o'clock that afternoon I went down town and got four bits' worth of whisky. On my road back I passed the tent. Mrs. Specht was standing at the door and asked me to come in. I went in, and she was sitting on the bed sewing. I sat on the bed, too, and afterwards laid down. We drank the whisky and were giggling and laughing when the Chinaman came to the door. She then seemed excited, and called, "John, come here and help me." She told me her husband teased her about some Chinamen friends visiting her.

The cross-examination brought out a number of contradictions. The case was given to the jury late in the evening, and under instructions they were allowed to disband to return into Court Monday, February 6th.

ILLINOIS SOCIETY.

A Pleasant Social Held Last Evening.

An unusually large number of persons were in attendance at the Illinois Society enterteinment at Good Templars' Hall last night. The hall was crowded to its utmost capacity, and many were obliged to go away, being unable to even find standing room. The exercises were very good, as they always are. This popular society seems to be carrying everything by storm, and the programmes produced are strictly first-class. The organization numbers among its members some of the best musical and literary talent in the city. The entertainment last night consisted of the following:

Piano solo, Miss Ethel Haines.
Vocal solo "My Old Truncle Bed," Mrs. Sarah Dunham.
Solo, "Nearer My God to Thee," Miss Neubauer.
Recitation, "Charcoal," Miss Buckingham.
Vocal solo, "Last Night," Mrs. Geo. Root.

During the long intermission which followed, a general social time was enjoyed, and strangers were introduced to the members and welcomed.

Part second was made up in the main by calling for volunteers from the audience' which was favored by a vocal solo, "Answer," by Prof. Fred Borneman, piano accompaniment by Prof. A. J. Stamm. Encore, "The Daily Question." An exercise from C. Hering, by little Master Julius Stamm, was one of the most interesting features of the evening.

The following was the programme:

Recitation—"The Unbolted Door," Miss Richardson.
Vocal Solo—Miss Emma Neubower.
Extempore Speech—Judge Church.
Recitation—"Schnider's Nose," Mr. Alvord
Rambling Talk—Mr. Benjamine, (colored)
Vocal Solo—"Babbling Brook," Mrs. Sarah Dunham.

The society adjourned to meet again in one week.

LIGHT FOR SANTA ANA.

Parker Bros. & Harris Nobly Come to the Front.

It is with great pleasure that we announce to our readers that electric light for Santa Ana is an assured fact. It is our unbiased opinion that such a system ought to be put in by the town itself, but inasmuch as our city is growing so rapidly that it is utterly impossible for our council to make all the improvements at once necessitated by the boom, we all feel grateful to the enterprising firm that has so nobly advanced to the rescue. Parker Bros. & Harris will put in an electric light system, of the Thompson-Houston patent, just as soon as their new building, the grist mill, is finished. They have ordered a 40-horse power engine, which will be sufficient to furnish the necessary power.—[Blade.

Christian Endeavor.

The monthly meeting of the young people's society of Christian Endeavor occurred last evening at the First Presbyterian Church. The session room was well filled and all listened with intense pleasure to the following programme:

Instrumental duet—Misses Pitblado and Healy.
Vocal duet—Messrs. Harris and McKee.
Recitation—Miss Ina Pitblado.
Essay—Miss L. Waite.
Vocal duet—Messrs. Harris and McKee.

The following question was humorously debated:

Resolved, That ecto plastic and ento plastic products are chemically distinct from protoplasms.

Messrs. Gale and Greenwald appeared for the affirmitive and Messrs. Robinson and Chambers for the negative. At the conclusion of the debate the judges decided in favor of the affirmitive. The balance of the evening was spent in social intercourse and all seemed to have a merry time.

Summons Served.

United States Deputy Marshal Bequette went to Santa Monica Wednesday evening and served summons on J. B. Martin, R. B. Jones, Thomas Olnir, George Haynes, R. Martin and Wm. Barr in the ejectment case of Senator John P. Jones vs. J. B. Martin et al to recover a large tract of land on the Ocean tract with $5,000 damages and costs. It is stated that this place has been infected with people who camp on the beach and keep saloons there paying no heed to sanitary rules but allowing garbage to collect which caused a great stench to be blown by the sea breeze into the village of Santa Monica. The people have become tired of this illeged lawlessness that has been heretofore permitted and are endeavoring to suppress it.

The Carletons.

Manager Wyatt announces for next week's attractions at his Opera House the very popular Carleton Opera Company. This is their second engagement and Manager Wyatt shows good judgement in securing them a second time. Mr. Carleton will produce *Fra Diavolo* for the first time in this city, and also has enlarged his company in many ways, having added Miss Alice Vincent, who will be remembered as the beautiful Ermini of last season, and Miss Tellula Evans, late prima donna in opera in San Francisco. His second engagement will in all probability far surpass his first here. The advance sale has been very large.

An Insane Spaniard.

Y. Ignacio, a Spaniard who belongs in Santa Maria, was yesterday arrested on Buena Vista street for assaulting a man. He has been insane for some time and is a perfect nuisance as he is continually suspecting people of robbing him of money. He came to the city yesterday and was wandering around when he took it into his head that same one was going to rob him, and immediately picked up a brick and struck a man on the head. Ignacio will be taken before a commission and examined for insanity.

That City Hall

Is still on wheels, but those who get into the syndicate forming with C. M. Wells & Co. to purchase 160 acres on Vermont avenue motor line at $350 per acre, or 22 acres on Seventh street at $1400 will never regret it.

Staunton & Matthews' excursions always leave sharp on time. Being thoroughly well managed, everyone has a good time. Grand excursion train to Anaheim leaves New Depot at 8:50 a. m., Commercial Street Depot at 9 a. m., Saturday, February 4th. f-3-2t

BURGLARIES.

Two Take Place in One Evening.

The hardware store of D. E. Hoffman, 220 South Main street, between Third and Fourth streets, was entered by thieves Thursday night and a large quantity of goods stolen. The thieves carried off silver-plated forks, spoons and knives, and a good deal of fine cuttlery, and numerous other articles of value that could be easily carried. They entered the rear door through an alley leading from Mayo street. The key was carelessly left in the door by some one of the employés of the store. A hole large enough to admit a small hand was made next to the lock of the door by a brace and bit. The thieves left a large chisel, saw and brace and bit behind. Upon the saw were the initials "W. D." It was evidently stolen from some carpenter, as it had been much used. The till was broken open, and the thieves secured $5 or $10 in money. Sergeant Donahue thinks that the thief was assisted by a boy, as the hole made in the door was too small to admit the hand of a man.

Burglars broke into the depot at Wilmington on the same night and blew open the safe, securing $175 in coin. The thieves, in order to enter the depot, drilled a hole in the door and broke the lock. After they had succeeded in entering the building, they went to work on the safe. A hole was drilled in the lock, powder inserted and touched off. No report of the explosion was heard by the people in the immediate neighborhood. The report of the explosion must have been smothered by the use of wet blankets. A package of money for Wells, Fargo & Co.'s Express Company was found lying under a piece of paper undisturbed. The robbers overlooked that important article.

The Value of Petitions.

Mayor Workman is desirous that we should publish the following petition, asking him to appoint Mr. Lester Osborne, a staunch Republican, as his clerk. He says he was very severely criticized by members of his own party because he favored the retention of Mr. Teed, also a Republican, as Clerk of the Council, and yet the petition urging the appointment of Mr. Lester Osborne is filled with the names of leading Democrats. It is a sad fact that men will stultify themselves by signing petitions requesting others to do what they have no hesitation to denounce when done: H. K. S. O'Melveney, A. W. Hutton James Hanley, W. P. Gardiner, A. W. Barrett, Wm A. Cheney, M. T. Collins, Geo. M. Holton, J. Kuhrts, C. H. Dunsmoor, N. Mathews, J. C. Daly, M. Teed, M. V. Biscailuz, Chas. K. Johnson, Henry T. Gage, Jno. F. Criminal Notes.

James Williams and Wm. Josephs were sentenced to four years in San Quentin for robbery.

The case of H. S. McClure and George Lohg, for stealing a box of tobacco from N. A. Newmark & Co.'s store, last Tuesday, Was yesterday found before Judge Austin, and defendants found guilty. They were both sentenced to the county jail for six months.

Thomas Smith and Ed Fay, who broke into a car at the Santa Fe depot Thursday evening and stole a quantity of tobacco and cigars, were yesterday examined before Judge Austin on the charge of burglary, the evidence was quashed and the charge of petit larceny substituted. Both were found guilty. Judge Austin will sentence them to day.

C. S. Hill was yesterday arrested for violating the fire ordinance. The complaint was entered by Chief Engineer Moriarity, and sets forth that the brick structure in course of construction is contrary to the city ordinance, as the walls are only eight-inch walls. Hill deposited $25 for his appearance in court.

A small roan horse was reported at the station as having stood on Spring St. in front of the Fountai saloon all night. The horse evidently had not had any food or water for many hours, as it was so eager for water when released that it was with difficulty that the beast was kept from drinking out of the pools in the street. The horse was taken to the pound and cared for to await its owner.

Richard McCullough and Theodore Guthner, who have had some trouble with C. W. Carr in regard to a cattle deal, met yesterday for the purpose of negotiating a settlement, but were unsuccessful, whereupon McCullough and Guthner both commenced to abuse Carr for his obstinacy. He had them both arrested and taken before Judge Austin yesterday for disturbing the peace. The defendants were both found guilty and will receive their sentence to-day.

43,000 ACRES.
Santa Ynez Valley Lands
FOR SALE IN LOTS TO SUIT, FROM 10 ACRES UPWARDS.

THE UNDERSIGNED WOULD RESPECTFULLY CALL THE ATTENTION of intending purchasers to the lands of the Santa Ynez Land and Improvement Company, which is without doubt the best investment in California. These lands can be bought in any quantities desired and are as good for the cultivation of Olives, Prunes, Oranges, Walnuts, Almonds, Grapes, or in fact any fruits or vegetables that are grown in Southern California as any lands in Los Angeles county, and can be bought on reasonable terms and at a very small part of the price that would be asked for the same lands here, so that it offers one of the best opportunities to parties selling out here to reinvest. To Eastern purchasers this is one of the best opportunities to invest in lands that are bound to be worth double the price that are now asked for these within a very few months, as both the Southern Pacific and A., T. & S. F. Railroads have surveyed through the entire tract, which will double the value of these lands as soon as completed past this tract.
Descriptive Catalogue, Maps, Price and Terms furnished on application.
Every facility will be given purchasers who would like to visit the tract before purchasing. Vehicles will be on hand to take customers over these lands and everything done to make a visit to this section agreeable.

Startling Discovery.

The discovery by the inhabitants of a locality hitherto unvisited by the pestilent scourge of fever and ague, that it exists in their very midst, is decidedly startling. Such discoveries are made at every season, in every part of the Union. Subsequently, when it is ascertained, as it invariably is at such times, through the valuable experience of some one who has been benefitted and cured, that Hostetter's Stomach Bitters is a thoroughly efficacious eradicator of the malarial poison, and a means of fortifying the system against it, a feeling of more security and tranquility reigns throughout the whole neighborhood. Besides the febrile forms of malarial disease, dumb ague and ague cake are removed by the potent action of the Bitters, to which science also gives its sanction as a remedy for rheumatism, dyspepsia, constipation, liver complaint, debility, kidney troubles, and all diseases impairing the organs of digestion and assimilation.

SAN GABRIEL, Los Angeles county October 5th, 1886.

MY DEAR SIR: Will you please, on receipt of this note, send to my brother, J. de Barth Shorb, one-half dozen bottles of "Wondrous Liniment" by express. He finds after a very long experience that this liniment of yours is far away the most reliable application he has ever used for aches, pains, stiffness, rheumatism, gout or neuralgia. It is needless to remark that on this subject my brother and myself have but one opinion. Respectfully,

J. CAMPBELL SHORB, M. D.
(Former health officer San Francisco.)

Make no Mistake.

By dispelling the symptoms so often mistaken for Consumption. SANTA ABIE has brought gladness to many a household. By its prompt use for breaking up the cold that too often develops into that fatal disease, thousands can be saved from an untimely grave. You make no mistake by keeping a bottle of this pleasant remedy in your house. CALIFORNIA CAT-R-CURE is equally effective in eradicating all traces of Nasal Catarrh. Both of these wonderful California remedies are sold and warranted by C. H. Hance, 77 and 79 North Spring street; $1 a package; 3 for $2.50.

Not a California Bear.

Anybody can catch a cold this kind of weather. The trouble is to let go, like the man who caught the bear. We advise our readers to purchase of C. H. Hance, 77 & 79 W. Spring street, a bottle of SANTA ABIE, the California King of Consumption, Asthma, Bronchitis, Coughs and Croup Cures, and keep it handy. 'Tis pleasing to the taste and death to the above complaints. Sold at $1 a bottle or three for $2.50. CALIFORNIA CAT-R-CURE gives immediate relief. The Catarrhal virus is soon displaced by its healing and penetrating nature. Give it a trial. Six months treatment $1, sent by mail $1.10.

The Proof the Pudding is in the Taste.

The Porter Land and Water Company has made a contract with Brownlee & Maurice to plant on their land at San Fernando 470 acres in Washington Navel orange trees. Think of an orange tree belt ¼ of a mile wide and 3¼ miles long. The company defies competition in citrus fruit lands. Go see and be convinced. Plenty of pure water piped to every tract free. Over $106,000 of these lands disposed of in one week. Office corner First and Spring streets or at San Fernando.

A Chance to Get Fine Land and Water Without Cash.

Porter Land and Water Company, corner of First and Spring streets, offers a few tracts of their best valley land at San Fernando to parties desiring to plant half in citrus fruit trees without requiring any cash for one year. Regular prices, plenty of pure, free water piped to the land. Terms, one, two and three years, at six per cent. interest.

Flush the Sewers.

They are talking about flushing the sewers in San Francisco all the time, and still it is only talk. In the meantime, many are carried off by malarial diseases who would be alive to-day if the cleanliness of that city were properly attended to. Frese's Hamburg Tea is an excellent medicine at all times, as it fortifies the human body against the bad effects of the gaseous poisons which, though invisible, are floating in the air everywhere, potent to destroy.

Duarte.

A trip to Duarte, a drive through its orchards, is necessary to all Eastern visitors. They will then know what has given its oranges their fame and its foothills the palm for attractive scenery. No spot equals it in capacities for beautiful homes, yet property is held at less than one-third of its neighbors, prices. All trains on the Atchison railroad stop at station.

Mrs. Jones—Dear Mrs. Smith, my Mary Ann is taken down with a violent pain in her stomach, and I have nothing in the house to give her. Will you let me have a little of your Frese's Hamburg Tea, and I will buy some and pay you back the first time I go into town. *Mrs. Smith*—Dear Mrs. Jones, I would gladly accommodate you but I have only a very little left. I regret very much to refuse you, but really I cannot afford to be without Frese's Hamburg Tea in the house. Go and ask Mrs. Robinson.

Water is king in California. Strangers should beware of deception about this indispensable article. Citrus fruits can't be raised without it. Many sellers promise water, but few can show it. The Porter Land and Water Company, First and Spring streets, invite inspection of their lands and water at San Fernando.

Dealers and Consumers of Beer Will find it to their advantage to call on Philadelphia Brewery, Aliso street, for the best lager or steam beer, good on draught for weeks, at lowest prices. Bottled lager $1.20 per doz., if bottles returned. Delivered to any part of the city. Telephone 91.

Sixty thousand dollars spent in perfecting the water system of the Porter Land and Water Company at San Fernando, and an inspection will show that no system in the valley can compete with it. Go and see for your-elf. Office at San Fernando, or First and Spring streets, Los Angeles.

An Art Reception

REAL ESTATE. REAL STATE.

South San Jacinto!

Hemet Land Co., Capital $1,000,000. Lake Hemet Water Co., Capital, $2,000,000.

---:THE HEMET LAND COMPANY:---

Now offer for sale 7000 acres of the Best and Cheapest Land in California at $150 per acre. Easy Terms. The heart of the magnificent San Jacinto Valley, San Diego County

The only great valley as yet undeveloped and cheap. The richest of soil, abundance of water, and an elevation of 1600 to 1900 feet above sea level, making a climate that is delightfully warm, bracing and dry; the perfect climate for all throat and lung troubles.

The Grandest Water Supply in the State!

Eighteen miles up in the mountains, at an elevation of 4375 feet, a granite dam costing $130,000 is being constructed in Hemet valley, to hold the water which is supplied by the immense snow shed of Mt. San Jacinto, 10,987 feet high, Mt. Tocwish and Mt. Herke. This will form LAKE HEMET, covering 600 acres at an average depth of 65 feet, and containing 6,000,000,000 gallons, or 9000 miner's inches of water, enough to irrigate more than 100,000 acres of land. This water will be delivered in 22-inch iron pipes, under 723 feet fall. An inch of water guaranteed to every eight acres, and water right conveyed with every acre sold.

NO FOGS! NO FROST!

Unsurpassed for the finest Naval Oranges, Raisin Grapes, and all Deciduous Fruits. South San Jacinto will be the city of Northern San Diego County. Broad streets and avenues. In the center is a beautiful hill of 600 acres reserved for a park, upon which this winter 100,000 forest and ornamental trees, already purchased, will be planted, surrounded by a boulevard four miles long, 100 feet wide, with double avenue of trees. Brick hotel, brick offices and stores now being erected. $500,000 to be spent in improvements this coming year. Everything that unlimited capital can do will be done to make a model city.

Climate, Soil, Water and Capital have made Southern California,

and SOUTH SAN JACINTO has them all, as no other one place has. It immediately adjoins San Jacinto 18 miles east of Perris, on the Santa Fe, and 14 miles south of San Gorgonio on the Southern Pacific, and at present reached by daily stages. The Santa Fe is now actually building direct from Perris. Get in before the railroad boom.

GOSHEN!

GRAND EXCURSION

—TO AND—

Auction Sale

—AT—

GOSHEN, TULARE COUNTY.

BOVEE, TOY & CO.

WILL SELL AT AUCTION ON

THURSDAY, February 23, 1888,

At 11 o'clock A. M., on the Grounds

500 Business & Residence Lots

IN THE TOWN OF GOSHEN.

This town, now for the first time offered to the public in building lots, is undoubtedly the grandest opportunity which the great San Joaquin Valley with its limitless resources has ever offered the investor.

SITUATION.

Goshen is in the heart of the valley on the main line of the S. P. R. R. just midway between San Francisco and Los Angeles, and it is also the only center of the Cross Railroad systems at present running from Huron on the west to Visalia on the east. This cross line is now being pushed to the great coalfield of Robins and Rawlins on the west, and on the east will tap the inexhaustible lumber belt of the Sierras. It is beside, the center of numerous prospective lines and must undoubtedly become the great traffic depot of the Valley.

Soil and Agricultural Advantages.

Around Goshen are 100,000 acres of the finest agricultural land in the State--quite as rich and productive land as that around Fresno, which has sprung from a hamlet to a city of 10,000 inhabitants in three years. This soil is now bearing all the fruits and products of California in abandance wherever tested.

Goshen is 15 miles from Tulare Lake, and lying as it does between it and the Sierras, the question of water supply can never present any difficulty, as already attested by the abundance of irrigating ditches all around, and the superabundance of surface water and artesian wells.

CLIMATE.

Goshen has undoubtedly the best climate in the San Joaquin Valley--perfectly free from all malarial influences--and while the days are delightfully warm the nights are balmy and cool.

Goshen affords probably the best field in all California for a great fruit-canning and drying industry, and is scarcely second even to Watsonville as a location for an extensive beet-sugar factory, such as is being there erected by Spreckels & Sons.

Grand Excursion will leave Los Angeles on Wednesday, February 22, 1888, for Goshen.

Round-Trip Ticket, $8, good to return within 5 days.

TERMS OF SALE--One-fourth cash; balance in one, two and three years, with interest at 7 per cent. per annum.

REAL ESTATE.

SOUTH CUCAMONGA,

CALIFORNIA.

The Peer of Town Sites,

SITUATED ON THE

GREAT SUNSET ROUTE

—OF THE—

Southern Pacific Railway

—ABOUT—

Forty Miles East From Los Angeles.

Among the coming towns of Southern California, no town has been laid out on a more substantial scale with a view to future growth and prosperity than South Cucamonga, San Bernardino County, Cal.

Its location is one of the most charming in the

GREAT CUCAMONGA VALLEY,

Situated on the gently sloping plain, at an altitude of 952 feet above sea level, and within full view of the grandly towering peaks of the magnificent Sierra Madre range. Old Baldy, with his superb height of 9000 feet and hoary, snow-crowned tops, and Cucamonga, with its grand height of 5000 feet, together look down in majesty on the lovely valley at their feet, where, in most charming contrast, may be seen, far as the eye can roam, orchards of oranges, lemon, lime and olive, and vineyards laden with semi-tropical fruits, and fields clad with verdure and laden with perfume.

About three miles to the west may be seen the flourishing town and colony of Ontario: to the northwest, about the same distance, the old, world-renowned Cucamonga vineyard; to the north, the fine new town of North Cucamonga; to the northeast is the village of Etiwanda, and to the southeast Riverside, Colton and San Bernardino, and immediately to the southwest is the rich and prolific Chino ranch, South Cucamonga being the great central point.

The climate in any section being dependent largely in distance from the sea-coast altitude of surface, relation to mountains and general topography and contour, these conditions are perhaps as nearly perfect in Cucamonga as can be found anywhere in the world. The distance from the sea-coast assures freedom from fog-laden sea breezes, while the atmosphere is so pure, dry and exhilerating that those suffering from asthmatic and pulmonary troubles find it most invigorating and health restoring.

The water supply is inexhaustible, and, being from never-failing mountain springs, is absolutely pure. It is conducted in iron pipes, which are already laid throughout the streets of the town.

The soil is superior and rich sedimentary deposits, of extraordinary depth, is loose and easily worked, and retains moisture for a great length of time, requiring very little irrigation. Those who are thoroughly competent to judge have pronounced Cucamonga, taking soil and climate together, to be far superior to the famous Duarte and Riverside orange belt for raising oranges, lemons, etc., while it is entirely free from scale. The company also offers land in 10, 20 and 40-acre tracts, with water, adjoining the town site of South Cucamonga.

No new town in Southern California has brighter prospects for becoming a railroad center than South Cucamonga. Already it has two great continental lines, the Southern Pacific forming the boundary line to the South, the Atchison, Topeka and Santa Fe a short distance to the North, with two projected lines--one to Riverside and another to Salt Lake City.

A fine new passenger and freight depot, just completed by the Southern Pacific Railway, adds greatly to the comfort of travelers and general attractions. Over thirty trains pass through Cucamonga daily.

To secure the comfort of visitors, the fine new hotel belonging to the company has been opened under the management of a thoroughly competent hotel man. No expense has been spared in the appointments and furnishing to make it first-class in every respect, while the rates will always be reasonable.

The grounds surrounding the hotel and in the park adjoining have been tastefully laid out with all kinds of tropical shrubbery, ever-playing fountains, etc., by an experienced landscape gardener, and over 20,000 trees have been planted in the streets of the town.

A sojourn at this pleasant hotel, where within easy reach are the picturesque mountain trails, the grandly beautiful cañon and irresistibly charming scenery of mountain, glen and valley, will be found vastly conducive to health and happiness.

SOUTH CUCAMONGA

Is no new town in the midst of an unpopulated district, but is right in the centre of the finest improved portion of the Great Cucamonga Valley, and is bound to become a business centre.

Owing to its great richness the soil produces the finest oranges and lemons grown in the State, peaches, apples, pears, figs almonds and walnuts, and the finest of wine and raisin grapes. As proof of the great fertility of this section the old Cucamonga vineyard (one of the oldest and finest in the State), adjoining Cucamonga, may be mentioned, the wines produced there having a world-renowned celebrity.

Freight received at South Cucamonga depot, for the year 1887, amounts to the enormeus sum of 5,322,375 pounds; shipments from said depot for the same period, 2,039,025 pounds; thus showing the importance of this rapidly growing locality as a shipping point for the surrounding country.

A first-class livery stable will be opened immediately.

Telegraph, postoffice and express offices are already established, and the company intends shortly to erect a number of fine stores, private residences, and also contemplate the erection of a fine bank building. Lots have been set aside for school and church purposes, park and hotel grounds have been tastefully laid out, and over 20,000 trees planted on the streets of the town.

The lots are all good and perfectly level, and the company have placed them on the market at the lowest possible price, in order to enable those buying to realize a handsome profit within a short space of time. Compared with surrounding towns, there are no prices as low. In Ontario, the nearest town on the west, similarly situated lots are now selling at from $1000 to $4000.

A town backed by the extensive influence of prominent railroad officials, and such representative men as H. M. Hellman, W. H. Goucher, C. F. Smurr, T. B. Henry, John E. Jackson, A. A. Staunton, H. M. Russell, etc., whose determination it is to make it one of the most prosperous towns in Southern California, is assured.

The Cucamonga Land and Improvement Company, during the last few months, have been sparing no expense in improving and beautifying this splendid property and getting it ready for sale and being now assured of its great success as the coming town between Los Angeles and San Bernardino, have formally announced it on the market.

As the date of sale commences at 9 o'clock A. M. on and after

TUESDAY, JANUARY 10, 1888,

At the Company's office, 130½ West First street, Los Angeles, as well as through the agency of all reliable real estate firms in the city and throughout Los Angeles and San Bernardino counties, intending purchasers should not miss this opportunity to get in early and secure their lots and the first prices of the company.

LEGAL.

In the Superior Court

OF THE COUNTY OF LOS ANGELES, State of California. In the matter of the estate of Clara Emilie Engel, deceased. Order to show cause why order of sale of real estate should not be made. John G. Gnesse, the administrator of the estate of Clara Emilie Engel, deceased, having filed his petition herein praying for an order of sale of the real estate of said decedent, for the purposes therein set forth. It is therefore ordered by the judge of said court that all persons interested in the etsate of said deceased, appear before the said Superior Court on Monday, the 5th day of March, 1888, at 2 o'clock in the afternoon of said day, at the court-room of Department 4 of said Superior Court, at the city of Los Angeles, in the county of Los Angeles, to show cause why an order should not be granted to the said administrator to sell so much of the real estate of the said deceased as shall be necessary, and that a former order for the sale of part of said real estate be vacated. And that a copy of this order be published at least four successive weeks in the Los Angeles DAILY HERALD, a newspaper printed and published in said county

ANSCHLAG.

He will Plead in the Superior Court Monday.

At 2 P. M. yesterday, during the trial of the Rose rape case in Cheney's Court, Fred Anschlag was brought in a cab to the Court House and hurried into court. His appearance was unexpected by every one except the Court and the attorneys interested in the case. The Rose trial was at once suspended and the prisoner ordered to stand up for arraignment. After swearing an interpreter the two informations charging him with the murder of Mr. and Mrs. Hitchcock were read and a copy delivered to him. In reply to the Court's question, "Is Fred Anschlag your true name?" the prisoner answered that it was John Henry Frederick Anschlag. His attorney, Mr. McGregor, asked to have the time to plead set for Friday week, but was denied, and the time for plea set for Monday, February 6th, at 10 A. M. The Sheriff was then ordered to remove the defendant.

COAL AND COAL LANDS!

Elsinore, the only city in Southern California with a solid manufacturing backing, is located on the banks of a large and beautiful fresh water lake, seven miles long by three broad, and on the lines of the California Southern and Pomona and Elsinore railroads, eighty miles from Los Angeles or San Diego. This locality is especially favored and destined to soon stand pre-eminent for solid, safe and profitable investment in commercial, mining, manufacturing or agricultural business. Coal has been discovered and now two mines are in full operation, working a six-foot vein of bituminous coal, which through boring has been discovered to underlay, solid, an area of six miles square of territory—sufficient to supply the whole of California with cheap coal for the next hundred years.

Tile, sewer pipe, fire brick and fire clay works are now in active operation. The clays, from porcelain to coarse pottery clay, are abundant. Iron ore, gypsum, calcite and asbestos are in unlimited quantities and gold, silver and tin are all mined in and around Elsinore, within a radius of ten miles.

Climate clear, dry and unsurpassed. Abundance of mountain water, besides 180 hot and cold mineral springs for health, comfort and pleasure. Such are the attractions in Elsinore. Everyone who buys property there cannot help but realize handsomely on it—even though all other places should fail. Fuel, manufacturing and agriculture are the kings controlling the world.

A grand exhibition of the coal mined at Elsinore and an auction sale of coal, coal lands, acreage fruit lands and city property will be held at Armory Hall Saturday afternoon and evening, February 4, 1888.

CATARRH!

Throat Diseases, Bronchitis, Asthma, Consumption.

Together with Diseases of the Eye, Ear and Heart, and all Chronic Diseases of the Blood, etc., Successfully Treated by

M. HILTON WILLIAMS, M. D. M. C. P. S. O.

HOLLENBECK BLOCK, Corner Second and Spring Sts., Los Angeles, Cal.

All diseases of the respiratory organs treated by the most improved medicated inhalations, combined with proper constitutional remedies for the liver, stomach, blood, etc.

CATARRH.

The term Catarrh is applied to a peculiar disorder of the nostrils and adjacent parts which prevails to an alarming extent, and is productive of very serious consequences.

The most prominent and characteristic feature is a morbid discharge from the head, varying in its nature at different times.

In some there is an almost constant flow of clear, acrid fluid, but oftener an offensive, purulent or muco-purulent, greenish yellow matter is secreted, which accumulates in the nostrils or drops into the throat, necessitating its frequent removal by blowing the nose or expectoration, and often by both processes. Sometimes patients feel as though their whole head was in a state of rottenness, so great is the amount of matter discharged and so foetid is its odor. The patient is greatly annoyed by the constant dropping into the throat of the morbid matter from the head, and as a recumbent position naturally favors the flow downward, his rest is frequently disturbed from this cause. Many sufferers are obliged to lie with the head very much elevated in order to sleep with some degree of comfort.

In others, a tough, viscid and offensive phlegm collects behind and above the soft palate, in the passage between the throat and head, adhering to the parts with gluish tenacity. Its lodgment embarrasses respiration and creates a sensation of irritation and uneasiness in the affected locality, which gives rise to a constant and almost irresistible desire to relieve the discomfort by drawing the mucus into the throat so as to reject it by the mouth. This practice, popularly known as "hawking," is characteristic of Catarrh, and proves as embarrassing to the one affected, as it is disagreeable to those around him.

Again, the offensive matter hardens and deposits itself on the membrane in the shape of dry, hard concretions, which are discharged by the way of the nostrils or throat in lumps or fragments of a deep green tint. In some cases these incrustations accumulate to such an extent as to form a regular plug in the nose, which obstructs breathing and produces serious discomfort. So firmly do these incrustations adhere to the point of attachment that their removal usually requires the most violent efforts and not unfrequently they have to be torn from the membrane. Occasionally a solid cast of notable size is expelled on which there are generally traces of blood, but in some cases the cast presents a tubular appearance, being of exact shape of the nasal cavity. This condition is indicative of ulceration, which, in time, may destroy the bony structur of the nose and produce a subsequent flattening of that organ.

Cases are occasionally met with in which a thick, viscid, slimy secretion coats the membrane of the nasal cavities and then putrefies, giving rise to a stench which is really overpowering, and sufficiently fetid to poison the atmosphere of a whole room, and there are others in which all secretions of the membrane are suspended, causing an unpleasant feeling of dryness, heat, and feverishness in the head and nose—a condition popularly known as "Dry Catarrh."

The disease speedily extends to the air cavities of the bones of the forehead and face, giving rise to a distressing sensation of heavy weight or compression over the forehead, especially in the region above and between the eyes, and to a feeling of fullness, heat, irritation, soreness or pain in the nostrils near the root of the nose, as well as in the upper part of the throat, above and behind the soft palate. Sometimes there is pain obstinately fixed in some particular part, as in the temples, on the top of the head, at the back of the neck, or behind the orbits, and, occasionally, pain manifests itself in the face of so severe a character that it is frequently mistaken for neuralgia.

The breath is always tainted and at times assumes an exceedingly fetid and sickening odor. In some cases it becomes so revoltingly offensive as to render the sufferer an object of disgust to himself as well as to others.

The nasal membrane is thickened and congested, causing the nose to be stopped up, sometimes on one side, sometimes on the other, and often on both, giving rise to a disagreeable stuffy sensation in the head, and occasionally to violent and prolonged paroxysms of sneezing.

The voice is weak, indistinct and husky, or of a nasal character, displaying a sort of sniffling quality. Oftentimes there is a continuous hoarseness and discordance. There is also a sense of irritation in the throat, and frequent attempts to clear the parts of phlegm, producing the sound "hem" more or less forcibly. In some cases patients complain of an uncomfortable feeling of fullness, or a choky sensation in the throat, and in others of a distressing and almost constant dryness, for the temporary relief of which they have to swallow frequently Others again speak of a constant bad or nauseous taste in the mouth and throat.

The stomach generally suffers more or less and becomes weak and irritable; the appetite is capricious and nearly always bad in the morning. The patient is languid, unable to perform mental or physical labor with the usual facility, is nervous, depressed in spirits, at times, fearful, timid, agitated, and inclined to drowsiness and sleep; the memory weakened and permanent impairment seriously threatened.

The mucous membrane soon becomes morbidly sensitive to unfavorable influences, and, in spite of the utmost care, becomes affected from the slightest causes, so that at last a breath of wind upon the lining of the nose or throat becomes productive of a cold, and gives rise to serious disturbances of the respiratory organs. Thus the patient is subject to frequent and repeated colds, each attack aggravating the disease by giving it a new impulse, and involving a larger extent of surface than its predecessor. In this manner the difficulty spreads from organ to organ, invading the throat larynx, trachea and bronchial tubes, until, encroaching further and further, it reaches the finer ramifications of the bronchi, when but a slight impulse is required to send it to the lungs. Catarrh may, and often does, affect other organs in the body, especially those containing a mucous membrane, such as the Stomach, Bowels, Kidneys, &c.

Thus catarrh becomes the starting point of consumption development, the disease being eventually transmitted to the lungs, both by nervous connection and continuity of surface.

So frequently has this fatal course been noticed that all those who are thoroughly conversant with the subject now look upon catarrh as a premonition and one of the very earliest manifestations of consumption.

Inhalations are applicable in all diseases of the respiratory organs, but must be prepared for each individual case as they severally require.

Persons desiring treatment by this system of practice can use the remedy at home as well as at our office, and which will cause no inconvenience or hindrance to business whatever.

I have seen so many of these cases cured that I do not consider any case hopeless unless both lungs are seriously involved. Even then the inhalations aid us in dissolving the mucus and in contracting and healing the cavities, which nothing else can do with the same success. The very best references from those already cured.

CONSULTATION FREE.—Those who desire to consult with me in regard to their cases had better call at the office for consultation and examination, but, if impossible to do so, can write for a copy of my Medical Treatise, containing a list of questions Address
